Matt/Cheryl/Chance -

It actually looks like 10 o'clock on Wednesday morning will work best for people.

Matt - are you still available in that time slot? If so, I will set up a conference line and send out a calendar item.

Dave

I am on the road until about 3:15 on Tuesday. But - could call in to a conference call from about 3:15 - 4:00. Let me know if this works. If I cannot participate here is what we'd like to know from the WQP perspective:

If a fish consumption rate is added to the sediment management standards is it a CWA standard?

Dave - you've said the FCR would be added to Part V - Sediment Cleanup Standards. I know different parts of WAC 173-201-500 (Part V) have been looked at by EPA, and EPA has said certain parts are CWA standards and certain parts are not (EPA's Alaska rule letter to Ecology). We know some of our WQP stakeholders will probably push the issue with EPA to have the SMS FCR considered a CWA standard.

Let me know if 3:15 - 4:00 works for you, and if it does, what number I should call.

Thanks.

Dave and Cheryl,
I'm not available until 2pm on Tuesday. So anytime between 2pm and 4pm would work for me.

Subject: Meeting to Discuss Sediment Management Standards and
Clean
Water Act

Cheryl -

I spoke with Matt Szelag earlier this afternoon. We agreed that it would be a good idea for the three of us to discuss some of the issues surrounding fish consumption language, the SMS rule and the Clean Water Act.

Are you available for an hour or so during either of the following times?

- Tuesday afternoon - 1 to 4 timeframe
- Wednesday morning - 8:30 - 11 timeframe

Dave
